Model CM230

Sink on Drum

Product Data Sheet

Solvent Only

Overview

Fountain products are USA designed and manufactured rooted in half a century of expertise building commercial grade equipment engineered for the rigors of industry. Our designs benefit from continuous improvement from modern technologies and materials, valuing the voice of the customer, and a desire to lead and never follow. The CM230 is our best-selling solvent parts washer that fits efficiently into any part washing process. This sink on drum machine with integrated wash spigot and flow-through wash brush puts powerful solvent cleaning at your fingertips.

Function

Efficient and compact parts cleaning offers rugged 16GA drawn steel construction at great value. Flexible rinse spigot and flow-through wash brush with independent flow control brings versatility to this workstation. Available accessories bring additional functionality and quality of life improvements to this efficient performer.

Application

Industrial Cleaning, Automotive Service/Repair, CNC Fabrication Rinse, Agricultural Fabricators, Agricultural Maintenance/Repair, Power Sports Shops, Government Municipalities, Aerospace, Post Processing, Military Service/Repair

Drum for display only;
drum sold separately.

Product Highlights

Rugged 16GA construction with deep drawn and flanged sink and tough powder coat finish.

Integrated fire safety fusible-link built into the lid spring assembly

Function expanding accessories like drain/strainer upgrade that allows close-off and part soaking.
