Model EM200 Manual Tank Washer

Product Data Sheet

Aqueous Only

Overview

Fountain products are USA designed and manufactured rooted in half a century of expertise building commercial grade equipment engineered for the rigors of industry. Our designs benefit from continuous improvement from modern technologies and materials, valuing the voice of the customer, and a desire to lead and never follow. The EM200 is our medium, aqueous, manual parts washer with a work tray over solution design for dry zone cleaning and handling and efficient access for soak. The EM200 comes with a dedicated parts basket for soaking and a heater for proper chemical temperature.

Function

Ergonomic manual parts cleaning with a sturdy work tray surface and flexible rinse spigot. Dedicated parts basket allows for small part containment and soaking. The work tray can be lifted to access and soak larger parts. Quality of life improvements include a poly sludge containment pad, flow through brush and accessories like light kits are available.

Application

Industrial Cleaning, Automotive Service/Repair, CNC Fabrication Rinse, Agricultural Fabricators, Agricultural Maintenance/Repair, Power Sports Shops, Government Municipalities, Aerospace, Post Processing, Military Service/Repair

Product Highlights

Supplied parts basket for small item containment and direct access for soaking

1500W heater for in ideal chemical temperature to create optimal cleaning capabilities

Lower tray for storage and quick access to tools and consumables.

Open plan workspace for quick soaking and retrieval.
