Model EVAC Pump Liquid Transfer Pump

Product Data Sheet

Aqueous Only

Overview

Fountain products are USA designed and manufactured rooted in half a century of expertise building commercial grade equipment engineered for the rigors of industry. Our designs benefit from continuous improvement from modern technologies and materials, valuing the voice of the customer, and a desire to lead and never follow. The EVAC liquid transfer pump is a high-flow submersion transfer tool with our large-format 1500 GPH pump to move liquid rapidly between storage and parts washer machine. Our EVAC pump provides high performance for the value, quiet operation, and accessories provide additional enhancements.

Function

High flow, ultra-quiet, submersion pump rated for 1500 GPH. Illuminated rocker switch control and hanging support hook for hands-free operation. 100' transfer hose included. Long-reach 25 ft power cord with integrated GFCI protection. Accessories include durability and quality of life improvements.

Application

Industrial Cleaning, Automotive Service/Repair, CNC Fabrication Rinse, Agricultural Fabricators, Agricultural Maintenance/Repair, Power Sports Shops, Government Municipalities, Aerospace, Post Processing, Military Service/Repair

Product Highlights

Submersion style pump drastically reduces noise to practically whisper-quiet operation versus noisy top mounted transfer pumps.

Adjustable Hanging Hook to quickly set and secure height and position, offering you increased pumping control and ease.

Illuminated Rocker Switch control for function at your fingertip and high visibility of operating mode when hands-free.

Optional accessories for durability and quality-of-life are available to expand the performance of your EVAC pump.
